# RateLimit Configuration

```yaml
# Here, an average of 100 requests per second is allowed.
# In addition, a burst of 50 requests is allowed.
labels:
  - "traefik.http.middlewares.test-ratelimit.ratelimit.average=100"
  - "traefik.http.middlewares.test-ratelimit.ratelimit.burst=50"
```

# RateLimit Configuration

- **Average –** Maximum rate, in requests/second for a given source

- **Period–** The Time period

  - **Rate = average / period**

- **Sources–** Headers, IP's or Hosts
